

**Corona regulations for visitors of the University Forum East**  
(Update 06/01/2022)

Dear Ladies and Gentlemen,

You have an appointment at the University Forum East (UFO) of the Ruhr-University Bochum. In order to keep you and others healthy in times of COVID-19, the following rules apply:

1. If you yourself have tested positive for COVID-19, you are not allowed to enter the UFO (until the quarantine period has been completed by the responsible health department).
2. 3G testing is no longer required.
3. If you have cold symptoms, you should refrain from participating in your event.
5. The general hygiene rules as well as the rules for working together under COVID-19 conditions at the Ruhr-University Bochum are to be carefully observed (distance, hand washing, ventilation).
6. The mask requirement has been lifted. However, the RUB Rectorate strongly recommends that you continue to wear a mouth-nose protection in all events. A large number of students, lecturers and employees are at higher risk of suffering a severe course of coronavirus infection due to previous illnesses. Wherever minimum distances cannot be maintained, masks help to reduce this risk to a minimum.
